AKASH THAKUR

+91 9019596952 ◇ Kondapur, Hyderabad
akash.thakur.jobs@gmail.com ◇ akash-thakur-0a1660204

PROFILE

Results-driven software developer with **3.10 years of experience** in full-stack application development. Skilled in **Java, Spring Boot, React.js, Next.js, Oracle DB, Bootstrap and Apache Camel** with expertise in both backend and frontend development. Focused on improving user engagement and conversion rates through optimized load times and responsive design. Experienced in database management with **SQL and MongoDB**, and proficient in **version control**. Dedicated to delivering high-quality, high-performance solutions that meet client and business needs.

EDUCATION

Bachelor of Technology, Sharnbasva University — Sep 2019 - Jun 2022
Computer Science and Engineering. — SGPA 8.9

Diploma, Government Polytechnic — Jun 2016 - May 2019
Computer Science and Engineering. — Percentage 7.5

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, Bootstrap, React.JS, Next.JS, Redux, Angular, Keycloak
Backend	Java, Spring Boot, Hibernate, Graph QL, Apache Camel
Database	MySQL, MongoDB
DevTools	Vs Code, Git, GitLab, Docker, Kubernetes

EXPERIENCE

Employee
Prodevans Technologies Pvt Ltd — March 2022 – Present

Roles and Responsibilities

- Delivered 4+ customized banking applications as a Full Stack Developer using Next.js, React, Java, and Spring Boot, delivering solutions that Elevated system performance by 20%. Collaborated on-site with client teams to gather requirements and ensure seamless integration, resulting in 95% client satisfaction rate. Contributed to UI/API development that supported secure banking transactions while adhering to financial industry standards.

PROJECTS

Central Bank Digital Currency (CBDC – e₹ Project)-SBI — December 2024 – Present

- Designed and developed a feature in backend application for Aadhaar-based disbursement using **Spring, Jersey and Servlets**, implementing a secure maker-checker workflow.
- Built and maintained full disbursement flow, including user whitelisting and sponsor-based validations, ensuring compliance and security in financial operations.
- Developed **RESTful APIs** to support secure wallet operations, user onboarding, and Aadhaar seeding processes.
- Enhanced UI components and integrated new features to streamline customer verification and disbursement modules, improving overall user experience.
- Collaborated in Agile development processes, participated in code reviews, and followed version control best practices to ensure high-quality and timely deliveries.

Cloud Posture Management. (ABG) September 2023 - October 2024

- Architected a Cloud Posture Management Application using **Next.js** that enabled 40% faster management of 200+ VMs across AWS and Azure platforms.
- Implemented automated health check systems with Redux state management that reduced downtime by 25%, enhancing compliance monitoring and resulting in successful completion of 3 security audits with zero critical findings.
- Utilized the Context API for effective state management and created custom hooks to enhance performance and reusability.
- Developed and optimized user interfaces with **Next.js, JavaScript, HTML, Bootstrap, and CSS**; Boosted load times by 40% and increased user engagement by 25% over a 6-month period.
- Applied comprehensive unit testing for 15+ backend services using Jest and JUnit, achieving 80% code coverage and reducing production bugs by 30%. Established automated testing workflows, leading to improved code quality and a 40% reduction in technical debt across 5 critical application codebases.

Touchstone Automation (HDFC) August 2022 - June 2023

- Built a real-time monitoring dashboard using **React.js**, improving visibility into server health and reducing issue resolution time by 30%.
- Utilized **component-based architecture** with **custom hooks** and React Route**r** to modularize views and manage UI state efficiently.
- Led the development of a productivity dashboard using **React.js**, **HTML, CSS, and JavaScript**, improving workflow efficiency and reducing manual reporting tasks by 40%.
- Engineered optimized **SQL queries** for efficient CRUD operations on complex relational tables, enhancing database performance by 25%; also utilized **PowerShell scripts** to automate routine data management tasks, reducing manual effort by 35%.

Policy Project.

- Proficient in designing and developing **integration solutions using Apache Camel frameworks.**
- Engineered efficient data routes and seamless message transformation between heterogeneous endpoints using **Spring Boot and Apache Camel**; reduced integration time by 40% and boosted system reliability by 30%**.**
- Employed features such as **content-based routing**, message filtering, and aggregation using **Apache Camel.**
- Proficient in setting up and configuring messaging services like **ActiveMQ** and **Apache Kafka**, enabling reliable and scalable communication between distributed system components; improved message throughput and system reliability by 30%.

CERTIFICATIONS

- React.JS from cushort
- Mulesoft Certified Developer
- AWS Academy Graduate - AWS Academy Cloud Foundations

LANGUAGE SKILLS

- ENGLISH, HINDI, KANNADA
